

Pangaea Joins Intrepid to Raise More than \$12,900 for SCI

NEWPORT, RI – Oct 1, 2015

The SCI Mountain Challenge has collectively raised \$286,792 to date!

Team Intrepid-Pangaea was made up of Rich du Moulin, Mark Filanowski, Barbara Gradley & Andrew Baer who raised \$12,920!

All proceeds from the SCI Mountain Challenge directly benefit the mariners SCI serves through our programs like ship visiting and hospitality, advocacy, and education. With the Seamen’s Church Institute (SCI) as the charitable beneficiary of the event, everyone “wins.” Experience an adventure to remember for a fantastic cause.

In addition to the registration fee, SCI asks participants to raise funds and awareness for the Institute and its mariner support services. SCI challenges each team to raise at least \$3,000. The amount of philanthropic dollars raised in support of mariners is an important element of the competition and part of the basis by which SCI awards prizes.
